Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

This office action is in response to applicants' arguments filed on 05/04/07. Claims 1-26 are pending in the application.

#### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 02/23/07 and 07/13/07 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

#### ***Claim Objections***

Claims 4 and 5 are objected to because of the following informalities: claims 4 and 5 recite further comprising steps. However, they indicate letter "f" consequently. Appropriate correction is required.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 1-26 have been considered but are moot in view of the new ground(s) of rejection.

During patent examination, the pending claims have been "given their broadest reasonable interpretation consistent with the specification." See The Federal Circuit's en banc decision in *Phillips v. AWH Corp.*, 415 F.3d 1303, 75 USPQ2d 1321 (Fed. Cir. 2005).

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2154

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-26 are rejected under 35 U.S.C. 102(e) as being anticipated by

Katsikas US publication Number 2003/0191969 A1.

As per claims 1, 2, 6, 11, Katsikas teaches a proxy email computer installation (par 0105,0107, 0109-0110) including:

A database (fig 2, elements 204, 216) in computer memory associating a customer's identification, a customer actual email and a customer's proxy email address (fig 2 and 10-11; par 0092); an email server (102) .... ; a computer executable code on a computer usable medium or media providing: first programming to retrieve a customer's actual email address ...(par 0092-0094); second programming to forward (redirector 203) a second email message to the customer's actual email address; and a connection to a communication link forwarding (106) the second email message to the customer's actual email addresses (fig 1-2 and 10-11; par 0043-0045; 0092-0094 and 0100).

As per claims 3-5, Katsikas teaches recording proxy email address in a database ... ; looking up customer's actual email address; causing a web page to be displayed; receiving a second email from the customer; and forwarding the second to a third party identified by the customer (fig 1-2 and 10-11; par 0043-0045; 0092-0094 and 0100).

As per claims 7-10, 13-14, Katsikas discusses filtering email as customer's choice, blocking email addressed to the proxy (see par 0026, 0028-0029 and 0111).

All the remaining claims 12 and 15-26 recite copying content of email, checking for incoming emails, deleting email, receiving non-email message, alerting customer to the receipt of non-email message, and saving proxy address into Whois data for domain name (fig 1-2, 6-7; abstract; par 0037, 0043-45, 0100 and par 0104).
